Leave nothing to chance.
Have SEAK personally train your expert witness.

- 1-1 expert witness training in anticipation of deposition, trial or Daubert hearings from the expert witness training company.
- We have provided our 1-1 training to hundreds of expert witnesses in high stakes matters including medical malpractice, products liability, antitrust, patent litigation, homicide, will contests, and commercial litigation.
- SEAK has been retained by the FBI, Secret Service, IRS and NYPD to train their experts as well as numerous consulting firms and professional societies.
- Training can be provided via video conference and on short notice.

“Hi Jim: I wanted to let you know that I blew it out of the park this afternoon [at the Daubert hearing]. I was qualified and just want you to know how unbelievably valuable our preparation was. I was able to just pull things from our conversation and really held my own. Thank you again.”

“I want to thank you again. Everything you pointed out was brought up, and I was able to respond. At the end of the deposition, opposing counsel gave me his card and said he would be contacting me for a case. Again, many thanks for your help.”

William Dillin M.D.

Spine Surgery and Spine Medicine Consultant

The concepts of Evidence Based Medicine have been the cornerstone of Dr. Dillin's education during his spine surgery fellowship in Neurosurgery and Orthopaedic Surgery and the format for decision making in his subsequent practice.

The critical analytic features inherent in the ‘best evidence’ approach to patients have permeated his writing and his lectures, allowing flexible adaptation as the science has changed. The combination of logical clinical analysis based on these principles, and twenty five years of experience exclusively devoted to spine surgery and spine related problems, allows specialty focus on any Independent Medical Evaluations or Medical-Legal Reviews.

William Dillin, M.D. is a spine surgery and spine medicine consultant at the Kerlan-Jobe Orthopaedic Clinic. The Kerlan-Jobe physicians serve as consultants to the Los Angeles Rams, Los Angeles Dodgers, Los Angeles Kings, Los Angeles Sparks, Los Angeles Angels of Anaheim, Anaheim Mighty Ducks, Loyola Marymount University and USC Trojan Football.

“Hi Jim: I wanted to let you know that I blew it out of the park this afternoon [at the Daubert hearing]. I was qualified and just want you to know how unbelievably valuable our preparation was. I was able to just pull things from our conversation and really held my own. Thank you again.”

“I want to thank you again. Everything you pointed out was brought up, and I was able to respond. At the end of the deposition, opposing counsel gave me his card and said he would be contacting me for a case. Again, many thanks for your help.”

There’s an 84% chance your current insurance policy doesn’t cover you if you get sued for testimony.

And a 93% chance you are paying too much.

Hard to believe but I see it every day. Most forensic professionals have the **WRONG** type of insurance.

**Here how it happens.**
Let’s say you’re a forensic medical examiner and you call your local broker. They ask: “Are you a doctor?” You say: “Yes.” They pull a standard medical malpractice policy for a doctor. The term ‘forensic’ is never even discussed and you end up with the **WRONG** type of insurance.

**Go ahead and read your policy.** See if it even mentions ‘giving testimony’. If you like, send a copy of your policy to me and I’ll let you know what you’re paying for.

Whether you are an engineer or a legal nurse consultant, my insurance policies are tailored to what you do and the service you provide your clients. Not surprisingly, the **CORRECT coverage is often less expensive**. Because I understand what forensic professionals do, and in most cases, I can save them money.

**Don’t Wait.**
**Call me at 1-888-313-3226 today to get:**
- Advice in error and omission insurance for forensic scientists
- An accurate quote for the **CORRECT** coverage
- Savings between 30% - 50% in most cases

“I’m constantly referring member to Jim. He’s the ONLY insurance broker I’ve ever met that knows what the Dauber and Kumho Tire Case is. Call him.”  
Mary Rehberg  
The Academy Group

“If you’re tired of explaining to a clueless insurance broker what you really do, call Jim, he gets it. And he reduced our policy payment from $34,000 to just $6,500 annually.”
