PROFESSIONAL SUMMARY

Board-certified Emergency Medicine physician with subspecialty certification in Emergency Medical Services and more than 30 years of operational, clinical, and administrative experience across EMS systems, emergency departments, disaster response, and military medical operations.

Provides expert consultation, record review, medical causation analysis, and testimony in civil litigation involving out-of-hospital emergency medical care, EMS operations, dispatch standards, response times, air medical transport, and disaster medicine.

Current roles include state-level disaster medical leadership, municipal EMS medical direction, and academic faculty appointment.

AREAS OF EXPERTISE

- Emergency Medical Services (EMS) systems, operations, and medical oversight
- EMS dispatch, response times, and standards of care
- Prehospital clinical care, protocol adherence, and medical decision-making
- Air medical transport, CCATT operations, and in-flight critical care
- Disaster medicine, mass-casualty response, and incident management
- System-level coordination, resource allocation, and operational performance
- Quality improvement, protocol development, and EMS system design

CURRENT POSITIONS

Director of Medical Response Services (2023-Present)

Texas Division of Emergency Management

EMS Medical Director (2022-Present)

City of Deer Park

Adjunct Clinical Professor (2023-Present)

Texas A&M School of Medicine

EXPERT WITNESS EXPERIENCE

Experience includes expert consultation, record review, medical causation analysis, deposition testimony, and trial testimony in matters involving emergency medical care, EMS operations, dispatch decisions, and hospital emergency department standards.

- Expert reports prepared in EMS, emergency care, and transport-related litigation
- Deposition experience: Multiple
- Trial testimony: Yes (state court)
- Experience in both state and federal matters

EMS MEDICAL DIRECTOR EXPERIENCE

Medical oversight for multiple EMS systems, including:

- Harris Health System EMS
- City of Pearland EMS
- Houston Fire Department – Assistant EMS Medical Director (7 years)
- City of Deer Park EMS (current)

Responsibilities include:

- Protocol development and clinical oversight
- Quality improvement and case review
- EMS system design and performance evaluation
- Operational guidance for response, triage, and transport decisions

AIR MEDICAL & TRANSPORT EXPERIENCE

- Critical Care Air Transport Team (CCATT) physician with deployment experience
- Extensive fixed-wing critical care transport operations
- Aeromedical evacuation, transport physiology, and patient movement systems
- Operational decision-making in air medical transport environments
