### Summary of Expertise

Dr. Dipinpreet Rai is a distinguished family medicine physician with over 20 years of experience, specializing in hospital medicine and comprehensive family care within academic and corporate settings. She is committed to delivering holistic and evidence-based care for hospitalized patients, with a broad expertise in managing both acute and chronic medical conditions. Dr. Rai has a keen interest in cases involving mismanagement or misdiagnosis due to communication failures, medication safety issues, non-adherence to guidelines or protocols, documentation errors, and discharge planning. She is particularly passionate about addressing hospital-acquired infections, anticoagulation errors, adverse effects of weight loss medications, and diabetes management, ethics in medicine and telemedicine.
