Office: (305) 595-1317

Fax: (305) 279-0188

## ABSTRACT

Hello to those viewing and thank you for taking the time to look over my information. I am originally from a small Midwestern town, where I was raised learning the value of kindness and hard work. I believe my demeanor, integrity, and work ethic reflect my upbringing and I take pride in this. I have a broad range of interests and I feel very fortunate to combine several of these working in the meticulous field of orthopaedic surgery. I have been in practice for approximately 7 years, in both private and employed positions, and have focused my efforts on developing a skill set with which I am able to best serve the needs of my community. I currently take both orthopaedic trauma and hand surgery call and I am comfortable with virtually all general orthopaedic cases and complex upper extremity cases, including those requiring reduction and fixation, ligament reconstruction, arthroscopy, or arthroplasty. I also thoroughly enjoy teaching residents and students and lecturing on various topics when time allows. Again, I appreciate the time and always welcome any contact without hesitation.

## WORK AND TRAINING HISTORY

- Aug 2024 - Present** Orthopaedic Surgeon - Hand and Upper Extremity Specialist  
Miami Institute for Joint Reconstruction  
Miami, FL
- Oct 2021 - Aug 2024** Orthopaedic Surgeon - Hand and Upper Extremity Specialist

**AOBOS Member**, March 2015 - Present

## **CERTIFICATIONS**

**Oct 2012 - Present**      **Advanced Cardiac Life Support**  
American Heart Association

**Jul 2012 - Present**      **Basic Life Support**  
American Heart Association

## **INTERESTS**

I believe I maintain a very physical lifestyle with interest in a variety of activities such as weight lifting, mountain biking, and running, as well as playing various sports on the side. I am also very interested in all things internal combustion and love to modify my vehicles and motorcycles, participate in local track-days and other spirited-driving and riding events, and schedule dedicated leisure road trips as often as my schedule will allow. I enjoy playing the guitar, though my skills are mediocre, and tinkering around with my computers as funds allow. I have a passion for finance and investing, and one day hope to own businesses both within and outside of the medical field.

## SKILLS AND HOBBIES

### Mechanical Technology

6

I have spent most of my life repairing and modifying automobiles and motorcycles, both my own and those of others, and have an extensive knowledge base on which to draw in this regard. I am comfortable working on both domestic and foreign machinery and enjoy taking on new projects.

### Phlebotomy

8

I worked for 2 years drawing blood and starting peripheral IV lines, prior to medical school. I mostly utilize this skill for draws related to PRP treatment currently.

### Karate Instructor

6

I have approximately 10 years of experience both taking lessons in and instructing Ryuku-Kempo Karate.

### Computer Science

4

I have built and modified my own computers and those of my associates and possess extensive knowledge of various Microsoft and iOS programs, as well as an intermediate ability in networking.

### Violinist/Violist

6

I have played violin and viola for approximately 35 years and have had the chance to play in multiple groups.
