#### EXPERT WITNESS & IME PROFILE

Dr. René Loyola is a retired General and Vascular Surgeon with over 40 years of clinical experience in acute care surgery, trauma, complex wound management, and postoperative complications. Formerly board-certified in General Surgery, he practiced for four decades in high-acuity hospital environments.

He currently serves as a Wound Care and Hyperbaric Oxygen Therapy (HBOT) specialist with extensive expertise in pressure injuries, diabetic foot disease, infection management, limb salvage, and surgical-site complications.

Available for IMEs, record review, standard-of-care analysis, and testimony for plaintiff or defense.

#### CLINICAL SPECIALTIES

- General surgery (ret.)
- Vascular surgery (non-fellowship era training)
- Wound care, pressure injuries, diabetic & ischemic ulcers
- HBOT evaluation and indications
- Postoperative complications
- Tissue perfusion, oxygenation & limb salvage

#### EDUCATION & TRAINING

- Doctor of Medicine — University of Barcelona School of Medicine
- General Surgery Residency — University of Miami / Jackson Memorial Hospital
