Experience

Private Practice Podiatrist

Foot and Ankle Associates of Florida - Orlando, Florida

Jun 1987 - Present

- Provided comprehensive medical and surgical management of foot and ankle pathology, including traumatic fractures, dislocations, and complex soft tissue injuries.
- Diagnosed and treated diabetic foot ulcers, osteomyelitis, and infections, including limb-salvage and amputation cases.
- Managed preoperative and postoperative care for partial and complete lower-extremity amputations, assessing healing, complications, and functional outcomes.
- Evaluated and treated work-related foot and ankle injuries within workers' compensation and employment-based clinical settings.
- Assessed causation, treatment appropriateness, impairment, and functional limitations related to occupational and traumatic foot and ankle conditions.
- Conducted numerous Independent Medical Examinations (IMEs) related to workers' compensation, personal injury, and employment-related claims.
- Performed comprehensive medical chart reviews, identifying deviations from standard of care and treatment appropriateness.
- Provided sworn deposition testimony and served as expert witness for both plaintiff and defense attorneys.

Chief of Podiatry

Orlando Regional Healthcare System - Orlando, FL

Jan 1996 - Dec 2010

- Led podiatry services within the Department of Orthopedic Surgery.
- Assisted in drafting surgical privilege criteria and evaluating physician applicants for hospital staff privileges.
- Reviewed clinical performance and surgical standards, strengthening expertise in peer review and standards-of-care evaluation.

Teaching Staff Podiatrist

Florida Hospital - Orlando, FL

Jan 1990 - Present

- Instructed and supervised podiatric residents in surgical and clinical training.
- Evaluated resident performance, clinical judgment, and adherence to accepted medical standards.

Volunteer Experience

Volunteer Podiatrist

Orange County Medical Clinic - Orlando, FL

Jan 1996 - Present

- Provided medical care to underserved populations, including uninsured and low-income patients.
- Delivered care across the full scope of foot and ankle pathology.
