## **EXECUTIVE SUMMARY**

---

I graduated from the University of Kansas School of Medicine in 2010 and did my family practice residency at Smoky Hill Family Medicine. During residency I learned I wanted to practice in the emergency room and tailored my training toward emergency medicine. Since graduating, I spent six years in the Salina Regional Emergency Room. I decided I wanted to practice in a more rural environment and moved to the McPherson Emergency Room in 2019. In October of 2022 I decided to accept a position as medical director for the urgent care system at Salina Regional Health Center where I will see patients and supervise a group of NPs/PAs. I have added rural locum emergency medicine work in 2025.

I have taken on leadership roles since graduating. I have been the medical director of the Health Department since 2014 and CKF Addiction Treatment since 2018. I also am the Medical Director of the McPherson County EMS. Finally, I am the district coroner for eight counties in Kansas and provide death investigations for unattended deaths.

In summary, my expertise lies in emergency medicine (specifically rural emergency medicine), urgent care, supervising advanced practice providers, public health, EMS services, ultrasound, being a county coroner, drug and alcohol rehab, and teaching.
