

## CAROL RHYU, PMP, PMI-ACP, CCSFP, SAFe, PSM II, CSM, CSPO

BUFFALO GROVE, ILLINOIS • (872) 985-6051 • [CAROL.RHYU@GMAIL.COM](mailto:CAROL.RHYU@GMAIL.COM) [HTTP://WWW.LINKEDIN.COM/IN/CAROLRHYU](http://www.linkedin.com/in/carolrhyu)

**Sr. Cybersecurity SME & High-Impact Strategic Integration Lead** specializing in the protection of global critical infrastructure and high-stakes M&A environments. Expert at navigating the intersection of technical security architecture, regulatory governance (HITRUST, NIST), and commercial risk. Proven track record in orchestrating multi-million dollar remediation efforts for global airlines and financial institutions. Unique "Purple Team" expertise in forensic fraud induction analysis and contractual breach mitigation, providing C-suite leaders with a comprehensive shield against technical and legal liability.

### AREAS OF EXPERTISE

### PROFESSIONAL EXPERIENCE & ACCOMPLISHMENTS

**Sony Corporation America** – New York, NY

03/2026-Present

*Strategic M&A Security Integration Lead for Peanuts Worldwide & Sony Corporation*

- **End-to-end Security Integration:** Leading the integration of the Peanuts Worldwide into the Sony Corporation environment, overseeing the secure onboarding of 56 staff members and the decommissioning of legacy IT services.
- **Comprehensive Risk Assessments:** Discovery sessions and ongoing risk assessments across all systems, devices, and applications, while managing vulnerability detection and alert configurations to ensure zero-day alignment with corporate security standards.
- **Cross-functional Technical Migration:** Partnering with IT, Legal, HR, Procurement teams to transition infrastructure and delivering specialized security awareness training to mitigate human-centric risk during the merger.

**United Airlines** – Chicago, IL

10/2025-Present

*Strategic Lead, Cyber Defense Operations & Resilience*

- **Resilience Engineering:** Spearheading the enterprise-wide remediation and recovery strategy following a global AWS outage; conducting Business Impact Analysis (BIA) for 43+ mission-critical applications to ensure zero-downtime failover capabilities.
- **API Security Governance:** Orchestrating the strategic deployment of Akamai security solutions across global API touchpoints; facilitating cross-functional "Attack Surface" discovery sessions to optimize incident response and perimeter defense and delivered 33% (3 mo.) earlier than scheduled
- **Enterprise Data Governance & Risk Mitigation:** Mitigating organizational data exposure by solutioning an automated PII detection ecosystem; bolstered the enterprise security posture through the integration of automated risk reporting, cross-departmental alerting, and a strategic security awareness program update
- **Strategic Roadmap:** Developing multi-year Cyber Defense roadmap for global operations, aligning technical alerting with executive-level risk appetite.

**Sysmex** – Lincolnshire, IL

03/2025-10/2025

*Technical Product and Security Compliance Consultant (SME)*

- **Cloud Forensic Audit:** Executed deep-dive security audits of AWS cloud ecosystems, identifying 240+ compromised access vectors and architectural misconfigurations.

- Compliance Architecture: Operationalized an enterprise-wide security framework mapped to HITRUST domains, closing critical control gaps and strengthening the risk posture for sensitive healthcare data.
- Governance Lead: Directed HR, IT, and Legal stakeholders in the remediation of infrastructure risks, ensuring technical fixes were supported by enforceable corporate policy.

**USAA** – San Antonio, TX

01/2023-03/2025

*Enterprise Security Strategic Program Consultant*

- Advanced Threat Detection: Pioneered pilot programs for next-generation surveillance and threat detection systems; managed the full lifecycle from vendor selection to cloud governance approval.
- Penetration Testing Oversight: Led adversarial testing initiatives to identify systemic vulnerabilities within the digital transformation pipeline, mitigating emerging threats before deployment.
- Regulatory Alignment: Guided engineering teams through complex model governance and cloud compliance hurdles, ensuring "Security by Design" for emerging fintech technologies.

**AbbVie** – North Chicago, IL

05/2021-12/2022

*M&A Security Integration Lead (Allergan Acquisition)*

- Merger Attack Exposition: Oversaw the massive AbbVie-Allergan security integration, managing the assessment and remediation of 400+ legacy applications to prevent post-merger data breaches.
- Adversarial Risk Management: Evaluated and prioritized high-risk vulnerabilities across the merged ecosystem, presenting urgent risk reports to stakeholders to prevent delivery delays and valuation impact.

### **SPECIALIZED SKILLS: CONTRACTUAL & FORENSIC RISK**

- Fraud Induction Analysis: Expertise in identifying systemic loopholes in enterprise workflows that allow for commercial or technical fraud.
- Litigation-Ready Governance: Developing project documentation and audit trails designed to withstand legal discovery and support breach-of-contract defense.
- Adversarial Mindset: Utilizing a deep understanding of litigation and fraud patterns to "pre-mortem" high-risk technical projects.
