8. PROFESSIONAL BIO (main profile text)

Ron Lamneck is a Consulting Arborist, Arboriculture Forensic Investigator, and Expert Witness with more than four decades of professional arboricultural experience. Through Arborist Consulting Solutions LLC, he provides Consulting Arboriculture, Forensic Arboriculture Investigations, Tree Risk Assessments, Tree & Plant Appraisal, Expert Witness Services, and Litigation Support in complex tree-related matters. Since 1984, Mr. Lamneck has worked exclusively in arboriculture, gaining extensive hands-on experience across every aspect of the tree care industry before advancing into consulting, forensic investigation, and expert witness work — giving him a comprehensive, practical command of the field that informs every professional opinion he provides.

As a Consulting Arborist, Mr. Lamneck provides independent, third-party technical evaluation and objective professional opinions — distinct from hands-on tree care — for attorneys, insurance professionals, municipalities, government agencies, Homeowners' and Condominium Associations, commercial property owners, developers, engineers, landscape architects, and private property owners. He is retained to investigate and evaluate tree failures, hazardous tree conditions, personal injury and fatality matters, property damage, construction impacts, root and infrastructure conflicts, tree preservation, insurance claims, municipal and association matters, permitting and regulatory compliance, tree ordinance violations, remediation and mitigation, tree appraisal, and questions involving the applicable Standards of Care.

Mr. Lamneck's opinions are developed through systematic investigation, comprehensive site inspections, careful documentation, and technical analysis grounded in accepted arboricultural principles and nationally recognized industry standards, including ANSI A300, ANSI Z133, ISA Best Management Practices, and the CTLA Guide for Plant Appraisal. Over the course of his career he has personally performed more than one thousand tree risk assessments and arborist reports, and has completed well over one thousand hours of continuing education to remain current with evolving methodologies, standards, and science.

Mr. Lamneck provides Expert Witness Services throughout all phases of litigation and dispute resolution, including case evaluation, document review, technical consultation, expert report preparation, mediation support, deposition testimony, and trial testimony. He is committed to communicating complex arboricultural issues clearly and objectively for attorneys, insurers, judges, juries, and other decision-makers. He is a Professional Member of the International Society of Arboriculture (ISA) and maintains professional liability (Errors & Omissions) insurance.

9. CONTACT INFORMATION

Firm: Arborist Consulting Solutions LLC
Location: Lake Worth, Florida
Phone: (728) 212-8891
Email: thearborist123@yahoo.com
Website: www.arboristconsultingsolutions.com

Consider a domain-based email (e.g., ron@arboristconsultingsolutions.com) before this goes live — a Yahoo address reads less professional to attorneys.
