

Peter J. C. Normington

Registered U.S. Patent Agent | Semiconductor & Display Technology Expert
Parker, Colorado | 480-577-2231 | expertpjcn@gmail.com

SUMMARY

Registered U.S. Patent Agent (USPTO Reg. No. 50,308) with over 62 years of engineering and consulting experience in semiconductor manufacturing, flat panel display technology, and intellectual property. Founder and President of Consultar LLC, a technology consulting firm operating continuously since 1986. Holder of four U.S. patents and author of 4 industry reference texts. Experienced expert witness in patent infringement litigation, with a background spanning engineering roles at Motorola, Martin Marietta, Raytheon, Medtronic, and Bendix Semiconductor.

AREAS OF EXPERTISE

- Semiconductor design, fabrication, and manufacturing processes
- Flat panel display technology and design
- Patent prosecution, patent claim analysis, and intellectual property strategy
- Patent infringement litigation support and expert testimony
- Technology licensing and IP portfolio evaluation

PROFESSIONAL CREDENTIALS

- Registered U.S. Patent Agent, USPTO Reg. No. 50,308 (since 2002)
- Holder of four (4) issued U.S. patents (details available upon request)
- B.S., Electrical Engineering, Rensselaer Polytechnic Institute (1964)

PROFESSIONAL EXPERIENCE

Founder & President, Consultar LLC — 1986 – Present

Technology consulting firm specializing in semiconductor manufacturing, display technology, and intellectual property matters, including patent prosecution and expert witness services for patent infringement litigation.

Engineering Roles — 1965 – 1986

Held progressive engineering positions at Bendix Semiconductor, Medtronic, Raytheon, Martin Marietta, and Motorola, spanning semiconductor device engineering and electronics systems design.

PUBLICATIONS

- Author of four (4) published technical books, including Flat Panel Displays (Integrated Circuit Engineering Corporation, Scottsdale, Arizona) — full list available upon request.

LITIGATION & EXPERT WITNESS EXPERIENCE

Served as testifying and consulting expert in multiple patent infringement and technology disputes, providing technical analysis, claim construction support, deposition, and trial testimony. Representative engagements include:

Albemarle v. MEMC Electronic Materials — Case No. 4:08-cv-3236

Testifying expert retained by Albemarle; semiconductor materials and contract terms. Deposition and trial testimony; verdict rendered in favor of Albemarle. (McGlinchey & Stafford, Houston, TX)

Anvik v. Nikon et al. — Case No. 7:07-cv-00816-SCR-LMS

Testifying expert retained by Plaintiff; LCD market and distribution chain, patent infringement. Deposed March 2012; confidential agreement reached June 2013. (BBL&G, New York City)

Mettler-Toledo v. Fairbanks Scales, Inc. and B-TEK Scales LLC — Case No. 9:06-CV-97

Testifying expert retained by Mettler-Toledo; electronics used in heavy truck scales, patent infringement. Deposition testimony; case concluded prior to trial.

Advanced Technology Incubator v. Sharp et al. — Case No. 2:07-cv-468

Consulting (non-testifying) expert retained by Plaintiff; LCD manufacturing, patent infringement. (Vinson & Elkins, Austin and Houston, TX)

Nwaneri v. Solaroad Technologies Group LLC — Maryland State Court No. 03-C-011536

Testifying expert retained by Plaintiff (Dr. Ngozika J. Nwaneri); solar cell use and application. Deposition testimony; agreement reached May 2013. (Roetzel & Andress, Washington, D.C.)

Available for additional consulting, technical report preparation, deposition, and trial testimony engagements.

References and detailed case history available upon request.
